

ACCESS EQUIPMENT

ZARGES 3-PART SKYMASTERS

Probably the only ladder you'll ever need!

Zarges Trade 3-Part Skymasters The Zarges Trade Skymaster Ladder is the standard type of ladder for performance venues. It is immensely versatile, you can use it as a three-part extension ladder, stepladder, free-standing two-part extension ladder or stairway trestle, etc. It's ideal for getting to studio grids, awkward lighting positions, over seating, up the back of scenery etc. It's also a great tool for the maintenance engineer, for corridor and stairwell lighting, difficult to reach windows and plants.

The Skymaster comes in seven sizes: 6, 7, 8, 9, 10, 12 and 14 rung three-part ladders. The 8, 10, 12, and 14 rung ladders are available as industrial versions on our website – see flints.co.uk. The Industrial type are fitted with twin locking bars and wheels on the top section. Each ladder comes with a stabiliser bar and one locking bar to lock the ladder in the closed position for ease of transportation. Flints' prices are well below list price. See the next page for accessories, including raked stage adapters.

Conformity: EN 131 approved to 150 kg.
Delivery prices: UK mainland £15.00 [3 working days], £25.00 [next day], £35.00 [am].

Why not Hire the industrial version? [page 356].

Falls from Height

Figures from the Health and Safety Executive show that 25 people died from a fall from height at work in 2016/17. There were 5,186 major injuries of which 2,516 caused the injured person to need at least seven days off work. Falls from height is the second most common cause of workplace fatality.

Please take care and follow the ladder safety tips below.

YOUNGMAN COMBI 100

From under £100.00 delivered!

Youngman Combi 100 A compact three-section aluminium combination ladder available in three sizes. It combines an innovative multi-functional design with the lightweight strength and durability of aluminium.

✓ Quick and simple to adapt ✓ Easy to store and transport ✓ Stabiliser bar and restraining straps for extra safety

Combi 100 Modes:

- ✓ Extension ladder
- ✓ Step ladder
- ✓ Extending step ladder
- ✓ Stairway ladder

SPECIFICATION: Max static load: 150 kg. Max duty rating: 110 kg. Stile size: 73 x25 x1.32 mm. Sections interlocked by top and bottom clips. Rubber serrated feet tagged into the end of the stiles. Square rungs [30 mm²]. Ends are expanded and rivetted into stiles. Material for stiles and rungs: Extruded aluminium alloy.

Conformity: to EN 131 to 110 kg[BS Kitemark].

Prices include delivery to UK mainland [allow 7 working days].

Top Ladder Safety Tips

- ✓ Daily pre-use check – feet included. Do not use damaged ladders
- ✓ Lean ladders at the correct angle: 1 out and 4 up
- ✓ Maximum permissible load: 150 kg [check with each model]
- ✓ Check restraint straps are tensioned and locking bars are in place
- ✓ Lean-to ladders must end 1 m above level of access
- ✓ On multi-part ladders use the rung lock devices
- ✓ Never erect on slippery ground
- ✓ Do not lean to the side when working from a ladder. Ensure your belt buckle [navel] stays within the stiles and keep both your feet on the same rung
- ✓ Do not lean against an unsafe bearing point
- ✓ Do not stand beyond the fifth rung from the top on multipurpose ladders or the fourth rung on lean-to ladders
- ✓ Do not climb from step ladders to a higher level of access
- ✓ Short duration work [maximum 30 minutes]
- ✓ Light work [maximum 10 kg]
- ✓ Keep three points of body contact always on the ladder
- ✓ Always secure your tools with a Lanyard [page 316]

About Youngman

Youngman has been associated with safety, quality and innovation since it was founded in the 1920s. They are now recognised internationally as a leading provider of innovative access equipment and systems that are designed and manufactured to the highest quality standards. Their Essex-based factory and head office has state of the art production facilities, extensive warehousing and distribution, a computerised customer services centre and fully equipped training facilities.

PLATFORM STEPS

NEW

Youngmans S400 GRP Platform Steps Fitted with 80 mm deep non-slip steps. The glass fibre-reinforced plastic stiles provide effective insulation and eliminate spark risk. When folded these steps are only 88 mm thick – ideal for storage. Accessories and tools can be stored safely in the top tray. The working heights given are approximate.

Conformity: EN 131 for 150 kg.
The stated number of steps includes the platform

ZARGES HOP-UP WORK PLATFORM

Zarges Hop-Up Work Platform Although this platform is small it is fantastically useful. Place one next to you while you paint a wall to put your paint pot on while you stand and work. For the lower areas just sit on it rather than bending your back, then stand on it for the higher areas to save stretching. Take it into the yard to sit in the sun while you have your deserved cup of tea. It doesn't look very impressive but you will love it! Lightweight, but durable, made from aluminium with steel locking hinges. Compact and easy to store when closed. Standard delivery terms apply. Now available in a double width version!

SHERPASCOPIC

Sherpascopic In accordance with the Work at Height Regulations 2005 A very stable design, preventing toppling from front, rear and sides. The stabiliser bar can be used on one side only when working against a wall. Platform height is adjustable. This is probably the safest choice of ladder possible. Working height is generally considered to be 2 m above platform height.

Certification: NF P 93-352.

Delivery: UK mainland £15.00 [3 working days] £25.00 [next day] £35.00 [am].

TALLESCOPES

Tallescopes The standard access tool for the entertainment industry, the Tallescope gives you easy access to work on rigging,

electrics, draperies, and sound etc. This compact and manoeuvrable all aluminium work platform allows access to working heights up to 9.5 m [31']. The two-part ladder section is operated by pulling a simple rope line, which allows a rung by rung height adjustment. The ladder section pivots over allowing the unit to pass through a standard doorway and for low level storage. Three standard models are available and they all are now supplied with supplementary safety kit [four outriggers etc.] as set out in the ABTT Code of Practice COP012: For the Use of Tallescopes for Working at Height in Theatres.

SCISSOR LIFTS

Scissor Lifts A useful range of small scissor lifts originally designed for lifting TV and video screens but ideally suited for product reveals and stage effects. A twin power socket can power electrical equipment up to a maximum 350 W each. The raised height can be lowered by a maximum of 160 mm using a micro switch. It is also possible to install an optional radio remote control which works at a range of 10 - 15 m. High quality German manufacturing with a two-year guarantee. NB: Please ensure

the instructions are carefully followed before installing the lift. Take care to ensure shards, grit, metal filings etc. are kept clear of the worm shaft. Always lift the unit by its base frame. The standard length of cable to the rocker switch is 1.8 m.

Flints holds the popular Model SLTE in stock. The other lifts will have a four week lead time.

Check out the Tower in our Hires section [page 356].

FLEXIBLE LADDERS

Fibrelight Ladders A black polyester webbing ladder with carbon fibre rungs providing a silent ladder suitable for occasional use. Supplied complete with bag and connector. Sometimes used for emergency mast climbing at sea.

Fibrelight ladders	code	price
5 m	LSFL05N	£154.16
10 m	LSFL10N	£258.33
15 m	LSFL15N	£358.33
20 m	LSFL20N	£454.17

Flexible Ladders These can be useful for access to front of house trusses but should never be used without back-up fall arrest equipment [see the ASAP Lock on page 317]. We suggest using the 6" wide version with 10" rung spacings which are considered the easiest to climb. The 4 mm

wire ends have a tested quick link termination which enables ladders to be joined with standard rung spacing. Also available with black rungs POA.

Flexible Ladders	rung spacing	code	price
