

METALLIC FINISHES

ARDENBRITE PRODUCTS

Ardenbrite Metallic Paint A range of high quality, quick-drying metallic paints, suitable for external and internal use. When used externally, they should be given a coat of protective glaze. May be used on wood, stone, expanded polystyrene as well as metal. Ready mixed for application by brush or spray. Touch dry in 15 minutes, hard dry in 3 hours.

The colour chart should only be used as a rough guide to the range.

ACRYLIC METALLIC PAINT

Polyvine Acrylic Metallic Paint Polyvine's metallic paint is produced without using metallic powders. The product has unusually good brushing and spreading properties making it a good choice for large areas such as walls. They can be tinted with Polyvine colourisers. The finish can be burnished with a soft cloth to a shine.

FLINTS METALLIC POWDERS

Flints Bronze and Aluminium Powder Technically speaking these bright powders are actually termed "flakes". They are suitable for making bright metallic paints when mixed with a glaze, Cellulose Bronzing Medium or Shellac [page 52]. If you require a metallic powder for mixing with polyester resin then refer to the specialist powders [page 103]. Opinions vary, but allow 500 g for 2.5 litres as a guideline.

IRON POWDER

See also the Rust Effect by Dirty Down [page 26] and Spray [page 43] and HATO®Rust [page 15]

F

Iron Powder This fine iron powder will rust quickly with water and is excellent for realistic rust effects. For best results apply a coat of a matt glaze such as Polyvine Dead Flat [page 47] onto your base colour. While the glaze is still wet sprinkle liberal quantities of iron powder into the glaze and spray with vinegar using a Hand-held Mister [page 80]. The iron powder will immediately begin to rust. Realistic-looking riveted steelwork can be achieved by glueing our Wooden Rivets [page 83] to MDF and applying some flat glaze around the edges and letting it run. Sprinkle with iron powder, spray with vinegar and it will look like rust is weeping from the rivets. Excess powder can be swept off when the glaze is dry. We can also recommend trying the HATO®Rust Effect on page 15.

Iron Powder	code	1 kg	10 kg+
	DPP258	£9.09	£8.18

METALLIC PASTES

Treasure Gold Paste can be applied by finger or thinned with turpentine and applied by brush to wood, metal, glass, wax, leather, plaster, plastics etc. In its paste form it will fill small holes and cracks. It may be tinted with artist's oil colours. Ready to polish with a soft cloth in 10 minutes. If varnishing with sealer allow to dry for 12 hours.

Treasure Gold Paste	size	code	price
Classic Gold	25 g	PATMCTG100	£8.63
Renaissance Gold	25 g	PATMCTG103	£8.63
Silver	25 g	PATMCTG104	£8.63

Liberon Iron Paste This paste will restore the appearance of cast and wrought ironwork such as grates, fire surrounds and fire irons. For scenic use it can be used on firebacks, stoves, boilers and pipes but it shouldn't be used on working wood-burning stoves or radiators. Apply sparingly with a brush or cloth and buff up after at least 4 hours with a cotton cloth. Makes wooden scenery look like solid cast iron. 250 ml is enough for up to seven fireplaces.

	250 ml	PAT396	£10.23

METAL LACQUERS

Rylard Brass Lacquer [Incralac] This brass lacquer is used in many demanding situations for protecting such metals as brass and copper, and is intended for interior or exterior use. With an excellent balance of hardness, adhesion and film toughness, it has superb resistance to UV light and resists yellowing and loss of gloss and clarity as it ages. The applied film also provides excellent flexibility and resistance to cracking and flaking. Brushes can be cleaned with Cellulose Thinners [page 53]. See also Metal Leaf Clear Universal Lacquer [page 39].

Rylard Brass Lacquer	size	list	code	price
Can	500 ml	£11.63	PATBL500	£9.89
Aerosol	400 ml	£15.15	PATBL400	£12.88

METALLIC SPRAYS

Flints stocks several makes of metallic spray paint all chosen for their brilliance and evenness of finish. The range covers most metals. Coverage will depend on the surface being sprayed but as a rough guide a 400 ml can will normally cover about 2 m².

Gold

PATKOB047

Kobra Metallic Spray A high "solid" content ensures great rapid coverage on any surface. It is perfect for painting on canvas, wood, metal, glass, paper, card, plastic, concrete, brick and more. We are particularly impressed by the gold, which is the best we've tried. Flints stocks a selection of Kobra Sprays in vibrant colours and fluorescents. See page 41.

Kobra Spray Paint	code	400 ml	Tradeline 12+
Gold	PATKOB045	£4.30	£3.87
Copper	PATKOB046	£4.30	£3.87
Silver	PATKOB047	£4.30	£3.87

Kobra Spray Nozzles Flints stocks a variety of cap sizes. Use the "fat" nozzle to quickly cover a large area with intense colour and the "skinny" nozzle to write, see page 41.

The swatches and below are photos taken by Flints of the actual products sprayed onto vinyl pipe.

Air Craft Metallic Spray Extra quality including an excellent silver chrome. Many of our clients consider the Air Craft Silver Chrome to be the most realistic chrome aerosol.
