

PYROTECHNICS

Delivery

Our Le Maitre range offers excellent value. The use of pyrotechnics, indoors or outdoors, is at the sole discretion of the operator who will have taken full note of the prevailing situation. Operators are warned that pyrotechnic devices can vary in performance and this must be borne in mind when siting devices. Pyrotechnics are subject to certain carriage restrictions. The UK mainland pyrotechnic delivery charge is generally our standard delivery charge plus £10.00.

Le Maitre have been creating and manufacturing pyrotechnics, smoke machines and special effects for over thirty years. Through dedication to design and innovation, they have become leaders in the field. A larger range can be found on our website – flints.co.uk

PYROFLASH DETONATING SYSTEM

PyroFlash is a simple “plug-in and play” cartridge system for semi-pro users. Ideal for venues such as theatres and discos. PyroFlash cartridges need the use of a Flash Pod.

Pro Stage Two Way & Pro Stage Six Way Both are battery-operated discharge controllers. Each channel can be fired individually with 50 metres of cable and up to 16 effects wired in series, or all channels can be fired at once with up to eight effects on each channel. Flash Pods are sold separately.

- ✓ Key switch for safety
- ✓ Features Bulgin connections for use with Flash Pods [PyroFlash cartridges] and turret connections for use with wired effects [ProStage11 consumables]
- ✓ Test facility available when the unit is armed and unarmed

SPECIFICATION: Both units use two 9 V batteries [page 326] or a mains 18 V power supply can be purchased. Dims: Two Way 180 x 170 x 70 mm. Six Way 303 x 190 x 68 mm.

Coloured Smoke A small crack is followed by a plume of coloured smoke. Please note that the smoke contains dye so care must be taken when positioning near scenery, drapes etc. **Fallout – none.** **SPECIFICATION:** Plugs straight into the standard Le Maitre pod. Medium/duration: 7 secs. Large/duration: 25 - 30 secs. Suitable for indoor use.

For longer lasting smoke see Smoke Grenades page 91.

NOTE The box price of this effect is rather high if you only need one or two smoke effects so we have decided to sell this product by the box and singularly. However, single items need to travel in the same type of box so you must order a travel box for individual or mixed orders up to 12. Orders of units of 12 include the box in the price.

FLAME PASTE

Flame Paste [Angel Fire] A flammable paste that can be applied to a suitable surface. It burns with an even orange flame and a small amount of paste burns for a surprisingly long time. The paste is virtually invisible when applied. The paste can be used anywhere a small controllable flame is needed. This paste can be used on stage to simulate a camp fire without the use

of flammable liquids or gas. Flame Paste is best extinguished by smothering the container and starving the paste of oxygen. The flame can also be extinguished by blowing the flame out.

SPECIFICATION: 200 ml of paste in a round container 75 mm diameter, burns for approx 7 mins and 30 sec.
