

SAFETY BONDS

Safety Bonds

Used as a fail-safe should the primary suspension fixing fail. Use for all suspended fixings, including lighting and sound equipment, particularly where items are suspended over people's heads. Try to ensure there is as little slack in the bond as possible as the loads given are based on static loads rather than dropped loads. A 3 mm \varnothing soft loop will pass through the hole in the Electro Kabuki. See Safety Lanyards for personal protection [pages 307 - 309]. See Small Tool Lanyards [page 310].

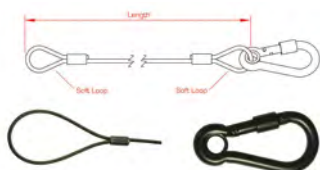

GENERAL PURPOSE BONDS

General Purpose Bond These black wire rope assemblies can be fitted with your own connector to perform a wide range of functions.

connectors	wire \varnothing	length	WLL	code	price
N/A	3 mm	600 mm	100 kg	DOUT2849001	£2.96
N/A	4 mm	600 mm	175 kg	DOUT2852001	£5.14
