

5th August 2019

Regarding Rosco Products Material Safety Data Sheets:

With the exception of the entire range of Rosco Supersaturated paints, Flints cannot at this time provide any MSDS sheets for Rosco products. This is because the only sheets currently available refer to US regulations which are not comparable to UK standards. You can however access these directly on the Rosco website:

<https://emea.rosco.com/en>

We are hoping to receive updated MSDS sheets from Rosco imminently which will refer to UK (EU) regulations, and we will update the data sheets available on this site as soon as they are available.

If you require any information in the meantime, please don't hesitate to contact our customer services team.
