

# Safety Data Sheet

according to Regulation (EC) No. 1907/2006 (REACH)

Article no.: 1016  
Date of print: 31.03.2010

Weave Filler 916  
Revision date: 22.10.2009

51311 EN  
page:1/4

## 1. Identification of the substance/preparation and of the company/undertaking

**Article no. (manufacturer / supplier):** 1016  
**Identification of the substance or preparation:** Weave Filler 916  
**Supplier (manufacturer/importer/downstream user/distributor):**  
A.Haussmann Theaterbedarf GmbH  
Mannhagen 2 Telephone: +49-4107 / 33 37-0  
D- 22962 Siek Telefax: +49-4107 / 33 37-99  
**Dept. responsible for information:**  
Labor E-mail: info@ahaussmann.com  
Emergency telephone: +49-4107-3337-0  
This number is serviced during office hours.

## 2. Hazards identification

The preparation is not dangerous in the sense of Directive 1999/45/EC.  
**Critical hazard to man and environment:**  
n.a.

## 3. Composition/information on ingredients

### chemical characterization (preparation)

**description:** Putty based rubber latex

### Dangerous ingredients:

EC-no.:	Identification of the hazard:	Classification	% by
CAS-No.:	R phrases:	remark:	weight
INDEX no.:	REACH-no.:		

n.a.

### Additional information

\* This preparation does not contain harmful substances and/or substances hazardous to the environment in accordance with the substance directive 67/548/EEC (incl. 29 ATP) or substances to which occupational exposure limit values are allocated.

## 4. First aid measures

### General information:

In all cases of doubt, or when symptoms persist, seek medical advice. In case of unconsciousness give nothing by mouth, place in unconscious position and seek medical advice.

### Following inhalation:

Move victim to fresh air. Put victim at rest and keep warm. In case of irregular breathing or respiratory arrest provide artificial respiration.

### After skin contact:

Take off immediately all contaminated clothing. After contact with skin, wash immediately with plenty of water and soap. Do not use solvents or thinners.

### Following eye contact:

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Seek medical advice.

### after ingestion:

If swallowed, rinse mouth with water (only if the person is conscious). Consult physician immediately. Keep victim calm. Do not induce vomiting.

## 5. Fire fighting measures

### Suitable extinguishing media:

alcohol resistant foam, Carbon dioxide, Powder, spray mist, (water)

### Extinguishing media which must not be used for safety reasons:

High power water jet

### Special exposure hazards arising from the substance itself, combustion products, resulting gases:

Dense black smoke occurs during fire. Inhaling hazardous decomposing products can cause serious health damage.

### Special protective equipment for fire-fighters:

Provide a conveniently located respiratory protective device.

### Additional information:

# Safety Data Sheet

according to Regulation (EC) No. 1907/2006 (REACH)

Article no.: 1016  
Date of print: 31.03.2010

Weave Filler 916  
Revision date: 22.10.2009

51311 EN  
page:2/4

Cool closed containers that are near the source of the fire. Do not allow water used to extinguish fire to enter drains, ground or waterways. Treat runoff as hazardous.

## 6. Accidental release measures

### Personal precautions

Ventilate affected area. Do not inhale vapours. See protective measures under point 7 and 8.

### Environmental precautions

Do not empty into drains or the aquatic environment. If the product contaminates lakes, rivers or sewages, inform competent authorities in accordance with local regulations.

### methods for cleaning up

Isolate leaked material using non-flammable absorption agent (e.g. sand, earth, vermiculit, diatomaceous earth) and collect it for disposal in appropriate containers in accordance with the local regulations (see chapter 13). Clean using cleansing agents. Do not use solvents.

## 7. Handling and storage

### Handling

#### Information for safe handling:

Avoid contact with skin, eye and clothing. Avoid breathing swarf. When using do not eat, drink or smoke. Personal protection equipment: refer to chapter 8. Do not empty containers with pressure - no pressure vessel! Always keep in containers that correspond to the material of the original container. Follow the legal protection and safety regulations.

### Storage

#### Requirements for storerooms and containers:

Storage in accordance with the Ordinance on Industrial Safety and Health (BetrSiVO). Keep container tightly closed. Do not empty containers with pressure - no pressure vessel! Smoking is forbidden. Access only for authorised persons. Store carefully closed containers upright to prevent any leaks.

#### Information about storage in one common storage facility:

Keep away from strongly acidic and alkaline materials as well as oxidizers.

#### Further information concerning storage conditions:

Store in a well-ventilated and dry room at temperatures between 15-30 °C. Keep container tightly closed. Smoking is forbidden. Access only for authorised persons. Store carefully closed containers upright to prevent any leaks.

## 8. Exposure controls / Personal protection equipment

### Technical measures to prevent exposure

Provide good ventilation. This can be achieved with local or room suction.

### Components with workplace or biological limit values to be monitored:

EC-no.:	description:	type:	Value	unit
CAS-No.:			STEL (EC)	TWA (EC)

Stated values are taken from the then applicable German TRGS 900 oder the German VCI table for exposure limit values.

TWA (EC): Occupational exposure limit value

STEL (EC): Short term occupational exposure limit value

### Occupational exposure controls:

#### Respiratory protection:

Not applicable.

#### Hand protection:

For prolonged or repeated handling the following glove material must be used: Observe the instructions and details for use, storage, maintenance and replacement provided by the protective glove manufacturer. Penetration time of glove material depending on intensity and duration of exposure to skin: Recommended protective gloves brand: EN 374 Barrier creams can help protecting exposed skin areas. In no case should they be used after contact.

#### Eye protection:

Wear closely fitting protective glasses in case of splashes.

#### Skin protection:

Not applicable.

#### Preventive measures:

After contact clean skin thoroughly with water and soap oder use appropriate cleanser.

## 9. Physical and chemical properties

### Appearance:

**State of matter:** liquid  
**Paint:** as labeled  
**Odour:** typical

Safety relevant basis data	unit	Method	remark:
Flash point:	n.a.		
Ignition temperature (AIT):	0 °C		
lower explosion limit:	n.a.		
upper explosion level:	n.a.		
Vapour pressure(at temperature in °C): 20	mbar		
density (at temperature in °C): 20	1,15 g/cm <sup>3</sup>		
Solubility in water: (g/l)	soluble in water		
pH (at temperature in °C):	-		
Viscosity:	n.a.		
Solvent separation test (%):	< 3 %		
Solid content (%):	64 % by weight		
solvent content:			
organic solvents:	0 % by weight		
Water:	36 % by weight		

## 10. Stability and reactivity

### Conditions to avoid:

Stable when applying the recommended regulations for storage and handling. Further information on correct storage: refer to chapter 7. Hazardous decomposition byproducts may form with exposure to high temperatures.

### Materials to avoid:

Keep away from strong acids, strong bases and strong oxidizing agents to avoid exothermic reactions.

### Hazardous decomposition products:

Hazardous decomposition byproducts may form with exposure to high temperatures, e.g.: carbon dioxide, carbon monoxide, smoke, nitrogen oxides.

## 11. Toxicological information

No data on preparation itself available.

### Practical experience

Other observations:

Repeated or prolonged contact with the preparation may cause removal of natural fat from the skin resulting in non-allergic contact dermatitis and/or absorption through skin. Splashing may cause eye irritation and reversible damage.

### Summarized evaluation of the CMR properties:

The components in this formulation do not meet the criteria for classification as CMR category 1 or 2.

There is no information available on the preparation itself. The preparation has been assessed following the conventional method of the Dangerous Preparations Directive 1999/45/EC and has not been classified.

## 12. Ecological information

### Type judging:

There is no information available on the preparation itself.

Do not empty into drains or the aquatic environment.

### Results of PBT assessment

The components in this formulation do not meet the criteria for classification as PBT or vPvB.

The preparation has been assessed following the conventional method of the Dangerous Preparations Directive 1999/45/EC and is not classified as dangerous for the environment.

## 13. Disposal considerations

### Appropriate disposal / Product:

#### Recommendation:

Do not empty into drains or the aquatic environment. This material and its container must be disposed of in a safe way. Waste disposal according to EC Directives 75/442/EEC and 91/689/EEC on waste and hazardous waste in their latest versions.

#### Control report for waste code/ waste marking according to EAKV:

# Safety Data Sheet

according to Regulation (EC) No. 1907/2006 (REACH)

Article no.: 1016 Weave Filler 916 51311 EN  
Date of print: 31.03.2010 Revision date: 22.10.2009 page:4/4

080112 waste paint and varnish other than those mentioned in 080111

**Contaminated packaging:**

**Recommendation:**

Cleaned containers may be recycled. Vessels not properly emptied are special waste.

## 14. Transport information

This preparation is not classified as dangerous under the international transportation regulations (ADR/RID, IMDG, ICAO/IATA).

## 15. Regulatory information

### EU-Regulations

#### Chemical Safety Assessment

Chemical safety assessments for substances in this preparation were not carried out.

#### R phrases:

n.a.

#### S phrases:

n.a.

#### Special labelling of particular preparations:

n.a.

#### Other regulations (EU):

#### Data concerning the Directive 1999/13/EC on the limitation of emissions of volatile organic compounds (VOC-RL)

VOC-value (in g/l) ISO 11890-2: 0,000

VOC-value (in g/l) ASTM D 2369: 0,000

#### National regulations

#### Informations on working limitations:

Observe employment restrictions under the Maternity Protection Directive (EC 92/85/EEC) for expectant or nursing mothers.

Observe employment restrictions under the law for the protection of young people at work (94/33/EC).

## 16. Additional information

### Further remarks:

The information supplied on this safety data sheet complies with our current level of knowledge as well as with national and EU regulations. Without written approval, the product must not be used for purposes different from those mentioned in chapter 1. It is always the user's duty to take any necessary measures for meeting the requirements laid down by local rules and regulations. The details in this safety data sheet describe the safety requirements of our product and are not to be regarded as guaranteed attributes of the product.
