## SKATE WEIGHTS

NEW

See stage weights on page 152

**Weight Skate XL** Flints is synonymous with Stage Weights but we haven't ever stocked anything to help you move them around... but now we have the Weight Skate; designed to carry up to 24 stage weights with a welded steel frame that weights neatly stack into. Think of this like a very fancy and much safer dolly. The

frame extends on two sides for you to have a two handed grip whilst manoeuvring. Great for moving weights around but also a compact weight storage frame with heavy duty braking castors and a black finish, so can be discretely stowed away backstage. The Weight Skate can also be customised with your own logo if you wish, please get in touch with us for a quote!

Specification: Dimensions: 53cm (W) x 52cm (H) x 54cm (D)

## PANEL CARRIERS

**Panel Carrier – The Original** Transforms lifting heavy panels into an effortless task due to a clever ergonomic design. The cams quickly [and gently] lock onto any panel up to 65 mm thick at a comfortable handling height. This prevents having to bend down to get your fingers under heavy panels and saves your back from undue strain. The comfy handgrip protects your hands from sharp

edges and splinters. This particular design can also grip the top of narrow panels which panel lifters, with a single central leg, are unable to do.

☐ Supplied in a box with: two handles. Red rubber handle.

Watch the video!

Shorten the legs for a bench to sit and have a cuppa.

**PlankForm™** Alasdair Flint's brainchild, PlanKForm™, spawned from a need for trestle tables which could be stored in a small space, be transported easily, and have endless uses. Simply slot a scaffolding board of your desired length [38 mm x 225 mm] through two PlanKForm™ units and it will transform your plank into a platform. The legs are simply four scaffolding tubes of the same length. You can create anything from a low bench to a 7' frame for a swing.

- ✓ Easily fits in the boot of your car
- ✓ Extremely versatile! Use any length of scaffolding plank and tube
- ✓ The horizontal bar between the sockets is perfect for hanging items like tools or a paint kettle
- ✓ Wingnuts threaded into the sockets keep the trestle secure and stable.
- ✓ Create multiple trestles to create a supporting surface to work on.

Available as just the PlanKForm units alone, or as a kit to make a work surface as shown above measuring 900 mm high, 985 mm long, and 225 mm wide. The kit includes:
